1. Claims 12-15 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 1,2,9 and 10. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Currently, the scope of coverage sought by the claims is substantially the same. The difference mainly dealing with means plus function language relating to the holder of the mirrors. One of these may be more defensible legally, but the issue at hand is more than one claim covering substantially the same subject matter. The applicant may, with proper reference to the portion of the specification relied upon, choose to amend one of the groupings to recite a more specific type of diffuser, mirror, mirror material or holographic recording material to differentiate the claims from one another. Please reference the portion of the specification relied upon to obviate any issue of new matter.

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1756

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
